International Joint Master of Research in Work and Organizational Psychology

**Which working conditions help prevent mental fatigue?
What determines the effectiveness of a team?
And how do you stimulate innovation?**

These are some of the topics that a Work and Organizational Psychologist studies. The International Joint Master of Research in Work and Organizational Psychology goes one step further and prepares you for a research career within or outside the walls of academia. Are you interested in both creation and valorisation of research outputs? Do you want to have a truly international study experience that takes you to three universities: Maastricht University (Netherlands), Leuphana University of Lüneburg (Germany), and the University of Valencia (Spain)? Then this programme might be right for you!

Fast facts

- joint master's degree from: Maastricht University, Leuphana University, and University of Valencia
- 2-year, full-time master's, taught in English
